Osteopathic Oath

I do hereby affirm my loyalty to the profession I am about to enter.

I will be mindful always of my great responsibility to preserve the health and life of my patients, to retain their confidence and respect both as a physician and a friend who will guard their secrets with scrupulous honor and fidelity, to perform faithfully my professional duties, to employ only those recognized methods of treatment consistent with good judgment and with my skill and ability, keeping in mind always nature's laws and the body's inherent capacity for recovery.

I will be ever vigilant in aiding in the general welfare of the community, sustaining its laws and institutions, not engaging in those practices which will in any way bring shame or discredit upon myself or my profession.

I will give no drugs for deadly purposes to any person, though it be asked of me.

I will endeavor to work in accord with my colleagues in a spirit of progressive cooperation and never by word or by act cast imputations upon them or their rightful practices.

I will look with respect and esteem upon all those who have taught me my art. To my college I will be loyal and strive always for its best interests and for the interests of the students who will come after me.

I will be ever alert to further the applications of basic biologic truths to the healing arts and to develop the principles of osteopathy which were first enunciated by Andrew Taylor Still.

DEAN'S MESSAGE TO THE CLASS OF 2010

Congratulations to you - the UMDNJ-School of Osteopathic Medicine Class of 2010! I am very proud of each one of you for achieving this milestone. I hope you look back on your time at UMDNJ-SOM with fond memories of student life, your fellow graduates, the faculty, learning and ultimately earning your Doctor of Osteopathic Medicine degree. Although graduation is often associated with the end of your efforts, this is truly a beginning in many ways. You are entering a new stage of your life where you will apply your unique skills to relieve suffering and always, continue to learn. Regardless of the discipline or area of medicine you aspire to practice, be passionate about learning and most importantly, committed to healing.

You have embarked on your medical career during the most extraordinary time in the history of medicine. Not only will you benefit from having received your medical education and training at the nation's finest osteopathic medical school, but you will also benefit from the abundance of research, invention, and technology that is available today to eradicate disease and prevent illness more effectively than ever.

Remember always, no drug can replace the empathy and healing hands of a well-trained, attentive and dedicated osteopathic physician. Also remember, each time you see a patient, you reaffirm the great oath you took at Convocation calling for you to respect and safeguard each patient you encounter. I know that you have been fully prepared to meet every challenge and possess the knowledge and skills to achieve all of your goals of becoming great physicians.

The tremendous commitment and involvement in our school by our growing alumni demonstrates their appreciation for how SOM has prepared them for their career in medicine, as well as their belief in the excellence yet to come at UMDNJ-SOM. It has been my privilege and honor to have been afforded this opportunity to serve you.

On behalf of the administration, I welcome you to the Alumni Association and trust that you will al-

ways consider yourself an important part of of the UMDNJ-SOM family.

Congratulations to you and best wishes in all of your professional endeavors.

The class of 2010 will be remembered for many things,

The psych test got moved for a holiday

Our classmate passed out at orientation

We had birthday cake monthly (thanks Wayne)

We couldn't use the bathroom during an exam

Dr. Channell yelled at us and stop the dumbness was born

We jumped in the fountain

Pain and palliative...

We could serve alcohol on campus

There were enough parking spaces (oh wait, nevermind)

but this is what we'll remember...

Dr. Hubbard was fashionably late to give his neuro lecture

Pufferbelly's still existed

People saved seats

We visited our classmate in the hospital

We made people cry (more than once)

We partied at Garrett's house
(btw, where did you move to?)

There was a tug of war over power cords

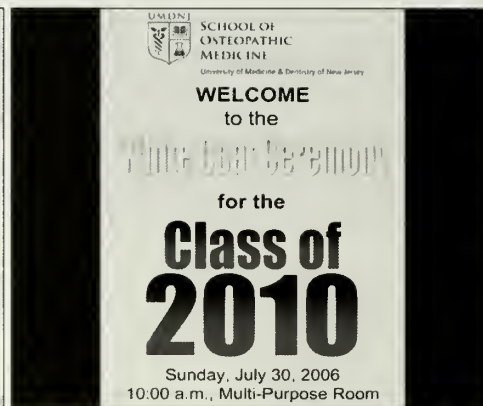

We threatened to call the fire marshal

There was a STUCO revote

That we cared

**And the
journey begins**

**Were we REALLY
ever oriented?**

**Work hard...
play HARDER!!!**

Out of the classroom...

**And into
our speedos**

Destined to be a D.O.

Beginning a new chapter

**“And so now...”
- Dr. White**

"Taking a ride on the bullet train" - Dr. Lee

**There's a bit of insanity
in dancing that does
everybody a great
deal of good**

**Half the fun of the travel
is getting your
reimbursement check**

We do not remember days

We remember moments

SOM will NEVER forget the Class of 2010!

Congratulations Class of 2010!

THE 2010 YEARBOOK COMMITTEE

(l-r) Bobbie Daniels, Christina Garcia, Heather Baye, Kirin Syed, Melissa Suarez, Erin Toller, D'Wan Carpenter, Soumya Bollampally and Garrett Tomasino

Dear Class of 2010,

Congratulations! Through it all, we have accomplished a goal that so many dream of. On July 30, 2006, we donned our white coats for the first time, not realizing just what we got ourselves into (by the way, remember when our coats were actually still white?). We have endured trains, dumbness, and even a bomb threat all in our first two years. We welcomed new members to our class through marriage and births, and came together to feed the new moms. All we learned in the classroom prepared us to wear that white coat daily and assume all the responsibilities that come with it. We separated for electives and came back with new perspectives.

It's hard to believe that we have come to the end of this journey together, but hopefully not the end of the connections we have made. As we move on to the next facet of our lives, may we each take with us the knowledge we've learned, the laughs we've shared, and the gift to impact lives as only a DO can. So this is it – we did it! Best of luck, and remember, “stop the dumbness.” Or better yet, just don't even start it in the first place.

Your Yearbook Chairs,

Bobbie “the sickle cell-trait” Daniels
Chris “I love my White Sox” Garcia
Erin “the daisy dukes” Toller

Special thanks to Dean Micciche for guiding us through the creation of this yearbook, and for putting up with us for four long years. Thank you to the yearbook committee for all their hard work and dedication without which this work would not be possible. Lastly, thank you to the media department for helping us capture the moments over our journey here at SOM.
